

Openest™

Draw people in

In today's workplace design, you're challenged to provide effective spaces that support the new ways people work—in a footprint that continues to shrink. People desire variety and choice to perform their best. They seek inviting spaces that inspire and engage. Designed by Patricia Urquiola, Openest collection provides adaptable solutions that respond to the ever-evolving nature of work, enticing people to come into the office while making the most of your floorplate.

Cozy havens that entice

Openest gracefully blends to create spaces that are comfortable, warm, and inviting—the types of spaces that attract and retain talented workers. Present a look that's neat and welcoming while providing a refuge of functional furniture for working or relaxing, focusing or socializing.

Set the tone

Curved lines and upholstery stitching on sofas and poufs evoke the craftsmanship and feel of residential furniture. Plume screens made from familiar textiles soften space and diffuse sound to encourage easygoing interaction.

Embrace the familiar

Provide a landscape of rich color that blends with existing surroundings. Openest materials feature common characteristics of visual and tactile softness from materials that make you feel at home.

Dynamic spaces for diverse workstyles

From solitary contemplation to strategic planning, Openest covers the spectrum of activities people do during the day. Choose from a variety of applications to create zones for focused or collaborative work throughout your workspace.

Create variety and choice

Break up formal or traditional office settings with Feather sofas, Sprig tables, and Chick poufs, dividing space with Plume screens. Use Retreats—available as desks or booths—to arrange informal enclaves for quiet reflection or private interactions.

Balance technology with comfort

Enable presenting and communicating with monitor mounts and integrated collaborative technology solutions such as a Workware™ easel. Give people the technology they need to work in a space that feels like home.

Stay connected and organized

Stow personal belongings and keep devices charged. Intuitive accessories, including solutions for storage and power, are available for people on the go.

When you're pressured to do more with less space, you need multi-use, agile products that maximize real estate. Openest helps improve efficiency while supporting the diverse ways people work.

Optimize your footprint

Leverage under-utilized spaces by creating comfortable work destinations that people are drawn to. Openest offers flexible solutions that make it easy to divide or reconfigure space quickly. Or simply refresh your space when there's no budget for a complete renovation.

Versatile solutions that leverage space

Accommodating changing business needs has an impact on your workplace. Openest helps you support your facilities objectives with flexible solutions to create inviting spaces that offer people variety and choice. Together or alone, Openest elements provide an array of short-term destinations that suit people's needs where work happens. With so many elements to choose from, you can optimize space while providing comfortable, cozy destinations that draw people into the workplace.
