

Intuity

Product Sheet

INTUITY

DESIGNED TO ACCOMMODATE EVER-CHANGING WORKSTYLES, ALL OVER THE GLOBE

Intuity is the latest product line addition to Haworth's global portfolio, a simple solution to the complex challenge of supporting the constantly evolving needs of people, technology, and work styles within a workplace. Intuity can help create a dynamic environment through a modular kit-of-parts, providing a seemingly endless range of configuration possibilities.

The design for Intuity began with a global, cross-industry insights and research process. We consulted clients, designers and specifiers from key international markets to understand the changing needs of businesses in both established and emerging economies. With these insights we developed a universal system with the flexibility to change and adapt to the needs of different businesses in almost any global market. Intuity symbolises a new approach to office furniture: co-create your work space with tailored solutions that span the entire floorplate.

Intuity is a beautifully simple, intuitive system that integrates seamlessly with different working styles, catering to the unique needs of each individual in your team. The system includes a suite of Yourway accessories designed to help you organise and define your workspace and exercise your unique work style.

DETAILS

DESIGNER Haworth Design Studio, bangdesign

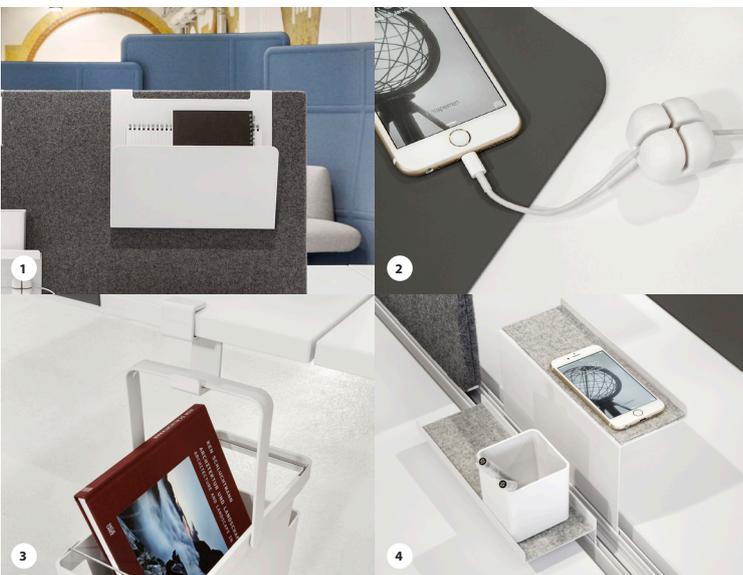

PHILOSOPHY Designed with a long-term outlook, Intuity enables you to make the most of your space through a kit of parts that can be easily reconfigured. This modular system allows you to recycle and reuse components to create new solutions and to redefine your environment as your business needs change.

TAILOR-MADE WORK SPACE Modern work spaces need to accommodate fluid work styles while offering quick access to every day essentials. Intuity features Yourway of accessories, giving you the ability to tailor to your tools to the unique needs of every individual.

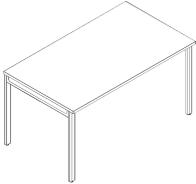

Intuity is just the beginning of a new approach to workplace solutions – one that emphasizes the nature of a truly global market, weighs equally the needs of the individual and of the group, and goes beyond meeting an organisation’s current challenges to anticipating its future ones.

Each component within the Intuity system has been carefully crafted to ensure it only uses the essential materials required. Combine that with in-market assembly practices and dedicated local project management teams, and we can deliver your customised solutions practically anywhere in the world.

- 1 Document Holder
- 2 Cable Grip
- 3 Universal Hook featuring Day Box
- 4 Organizer Tray Holder
