## Yop

Designed for flexible utility, Yop is a table for on-demand use. Created for both commercial and residential spaces that demand lightness and styled pragmatism, Yop is engineered to fold down for compact storage and stacking, and incline when needed for optimal efficiency.

Yop was created to meet the evolving demands of work and home environments—a surface when needed, discreetly stowable when not. Designed with an integrated flipping mechanism, its essential form is visually and functionally lightweight. A broad range of materials and finishes options from highpressure laminate (HPL) to wood (without incline) extend Yop's visual vocabulary making it well suited for diverse design applications, styles and functions—be it impromptu, planned, or somewhere in between. Yop is also available in a fixed version (without flipping mechanism). Yop is available in round (started from Ø 60 cm), squared (started from 60X60cm), or rectangular shapes (started from 140x70 cm).

### Designer

Lievore Altherr Molina, 2016

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.

### Applications

- Canteen
- Cafeteria
- Restaurant
- Office
- Campus
- Beak-out area
