

Tabourets H*

Designed by Xavier Pauchard

*H stool

An icon of industrial esthetics for almost a century, TOLIX®'s H Stool has travelled through periods and styles and become a classic in its own right. Etched in the collective memory, it is a «living heritage» that illustrates the French art of living. Created in the 1930s by Xavier Pauchard, it was the stool that public services, including hospitals and the army, sought out the most at the time. Nowadays, its design is frequently copied, and yet TOLIX®'s H Stool can be identified thanks to a stamp, symbol of the quality and authenticity that make it a collection piece to pass down from one generation to the next. The H Stool is available in eight heights with 5cm differences between each, from 45cm up to 80cm. It is also available in a «mini» version at 30cm. Try it in a perforated version for a different style. You can also place a TOLIX® cushion on all H Stools.

- Historical piece of the TOLIX® collection
- Available in the color charts ESSENTIELS, TENDANCES and BRUT VERNIS
- Stackable
- Available in eight different sizes
- The «Tabourets H» have footrests from the size H60 to H80
